Andheri (East), Mumbai.

---

Your commitment towards your oral health in dental treatment is greatly appreciated with proper care the teeth can last a lifetime. For your teeth to last a lifetime, it requires the combined efforts of yourself & your dentist.

## **Hypertension & Dental Treatment (Blood Pressure) Dental Treatment**

- \* Many at times, what dental treatment in the first session, an injection is required to numb the area & the other (adrenalin) is to reduce the bleeding after dental treatment.
- \* The medicine (adrenalin) which is required for reducing the bleeding can cause an increase in Blood Pressure. Therefore, patients who are Hypertensive & elderly patients who are likely to be hypertensive should get their Blood Pressure checked before dental treatment.
- \* The checking of Blood Pressure is done by the patients physician. Blood Pressure checking is not done in a Dental Clinic.
- \* Those patients who are having more problems of Hypertension should their Blood Pressure checked by a specialist.
- \* In such patients' dental treatment can be initiated only after the physicians' consent. This is known as Medical Fitness.
- \* Those patients who are having Diabetes will also be asked to get their Diabetes Check Up done before initiation of Dental Treatment.
- \* For any further queries, feel free to ask Dr. Veerendra Darakh. Please register on [www.drdarakh.com](http://www.drdarakh.com) & you can also get your queries clarified on the free online consultation module.

## **NOTE :**

- \* Only an examination will be done for new patients. All definitive treatment will start from second session.
- \* A broken appointment is a loss to everyone. Please keep your appointments.
- \* The faculty of DENTISTRY involves huge overhead expenses in terms of consumables & disposables, equipments, lab, charges, staff, electricity etc. Please help us to serve you better by **NOT ASKING FOR CREDIT**.
- \* 100% Advance before the start of the procedure.
- \* **Broken Appointments will be charged separately.** If appointments are broken than we have to spend more on materials & dental consumables to get the treatment back on track. Therefore, we request you to maintain the appointments.
- \* Radiographs (x-rays) will be preserved for only 3 days. Thereafter, they will be discarded.
- \* Our practice emphasizes on cosmetic & aesthetic & restorative dentistry.
- \* Please help us to serve you better by switching off the cell phones once inside the operatory.
- \* All radiographs (X-rays) will become the intellectual property of Dr. Veerendra Darakh, his licensees, assignees, staff & associates & will be used for training purposes, in lectures & seminars & on professional dental websites.

## **Kindly ask the staff for:**

1. Smile questionnaire.
2. Our patient education booklets on "TEETH WHITENING" & "WHY REPLACE A MISSING BACK TOOTH".
